Zohn Wheeler

IT Professional & Software Developer · Security Clearance

zohnwheeler@gmail.com github.com/zohnner linkedin.com/in/zohn-wheeler Kansas City, MO

EXPERIENCE

Applications Administrator [Security Clearance]

Mar 2026 — Present

Federal Agency · Treasury Systems · Kansas City, MO · Contract

- Monitor and support mission-critical Treasury applications, tracking security risks and system usage across enterprise environments.
- Collaborate cross-functionally with operations and leadership to deploy time-sensitive updates without service disruption.
- Utilize enterprise tooling including AWS, database management platforms, and ticketing/workflow systems.

Junior Engineer

Jul 2024 — Jan 2026

State Government Agency · Missouri

- Supported state-managed infrastructure and endpoint systems across multiple departments, resolving Tier 1–2 technical issues in compliance-driven environments.
- Assisted with system provisioning, configuration, and maintenance for Windows and Linux-based systems supporting public-sector operations.
- Diagnosed and remediated network issues involving DNS, DHCP, TCP/IP, and access control configurations.
- Monitored system health, logs, and alerts; documented incidents and change requests in centralized ticketing systems.

PROJECTS

SportStrata — Multi-Sport Analytics Platform

sportstrata.cc ↗

JavaScript · REST APIs · Cloudflare Workers · D1 Edge Cache · Gemini API

Multi-sport analytics platform for broadcast pros and fantasy players. MLB flagship with an interactive play-by-play scorecard, Statcast leaderboards, Monte Carlo playoff odds, and a natural-language stat query bar; NFL, college football, college basketball, and WNBA run alongside it. Ships KV-cached AI broadcast blurbs via a Gemini Worker, so inference cost never scales with traffic. Built solo across 800+ commits with a multi-agent AI persona team (design reviewer, code auditor, deep-review analyst) that automates review cycles.

PickSharp — Sports Betting Price Checker

wepicksharp.com ↗

React · Vite · Tailwind · Cloudflare Workers · D1 · Supabase Auth

Compares 9 US sportsbooks against Pinnacle's no-vig fair price every game day, flags bets priced above fair, and tracks every flagged bet against the closing line on a public record, misses included. Worker-rendered pages with a React app for the interactive tools.

ZRetroBuild — 8-Bit Retro Arcade

zretrobuild.zohnwheeler.workers.dev ↗

HTML / CSS / JS · Web Audio API · Cloudflare Workers · Zero Dependencies

Fully playable browser arcade — Snake, Breakout, and Space Invaders in an authentic CRT cabinet with scanlines, synthesized Web Audio, achievements, a coin-credit system, and 2-player support. Zero-dependency vanilla JS deployed on Cloudflare Workers.

Educational AI Discord Bot — Mizzou Capstone

engineering.missouri.edu ↗

Python · OpenAI API · Discord.py · Docker · MongoDB

Discord bot providing 24/7 academic assistance to university students via the GPT API. Engineered command parsing, async response handling, and conversation memory. Featured by Mizzou College of Engineering.

EDUCATION

Bachelor of Science in Information Technology

Graduated 2024

University of Missouri — Columbia

Dean's List · Global Semester Scholar · VR Club Chair · Featured in College of Engineering Magazine

SKILLS

Languages	JavaScript, TypeScript, Python, HTML/CSS
Frameworks	React, Node.js
Tools & Platforms	Git, GitHub, AWS, Linux, Docker, CI/CD, REST APIs
Infrastructure	DNS, DHCP, TCP/IP, Windows Server, Linux administration, ServiceNow
